

WELDER/FITTERS – TRAINING PROGRAM APPLICANTS

No Welding Experience? No Problem!

Whether you're new to the workforce and hoping to start a rewarding career or you're looking to try something new, we want to hear from you. Our ideal candidate might be a hobby welder, someone with experience using hand tools or working in a factory, or simply loved the shop class they recently took in school.

The Welder Training Program at AMI is geared towards a range of trainees – from people who have never welded to those who might just need a refresher. Our certified trainer will work with you to obtain your welding certification and you'll get paid to learn, on the job!

After the successful completion of your training you'll be integrated into our welding department in one of multiple welding positions available, working with experienced professionals manufacturing world-class material handling attachments. At AMI we offer:

- Competitive Wages
- Company Uniforms
- Great Benefits
- Pension Plan after 1 year
- New shop with modern technology and equipment
- Opportunity for growth and career advancement
- Friendly, collaborative team environment

We look forward to hearing from you! To apply, attach your cover letter and resume to the online form or email them to careers@amiattachments.com. We are an equal opportunity employer. Any person with disabilities who requires assistance through the application process is asked to contact our HR department.

AMI Attachments is located just outside of Kitchener/Waterloo, in Hawkesville, ON. We supply the heavy equipment attachment market across North America with innovative solutions used in construction, mining, demolition and oil & gas industries.
